EDUCATION

Texas A&M University

College Station, Texas

Bachelor of Science in Computer Science (3.88 GPA)

August 2022 – May 2025

Minor in Mathematics and Business

College of Engineering (Honors)

SKILLS / RELEVANT COURSEWORK

- **Programming Languages:** Python, Java, C#, C++
- **Front End/Back End:** HTML, CSS, JavaScript, React.js, XAML, Node.js, MongoDB, SQL
- **Relevant Coursework:** Program Design and Concepts (C++), Engineering Lab 1 (Python), Programming 1 (Java)

EXPERIENCE

Esync Technologies

Remote

Software Engineering Intern

August 2023 – Present

- Collaborating with team on machine learning project dealing with cybersecurity and data breach detection
- Developing consumer-centric AI products and deploying mobile applications using Flutter
- Deploying models on Keras and Tensorflow with a focus on utilizing Hugging Face as a platform
- Leveraged/Gained knowledge: Python, SQL, Flutter, Keras, Tensorflow, ML models, AWS, Azure, Matplotlib, Sklearn

CodePath

Remote

Web Development Pathway

September 2023 – Present

- Building an interactive frontend with React and responding to complex user input
- Implementing navigation using a React Router while connecting to a database to store input
- Leveraged/Gained knowledge: React.js, HTML, CSS, JavaScript

Chevron

Houston, Texas

Software Engineering Intern

May 2023 – August 2023

- Developed a full-stack web application using the .NET framework that automates a process for 2,500+ office and field users to edit 500+ software libraries and data tables
- Enhanced user productivity on well processes by cutting the time to edit software libraries from 1-2 days to a few minutes
- Collaborated with a team of software engineers to develop a CI/CD pipeline and participated in Agile/Scrum ceremonies
- Leveraged/Gained knowledge: C#, XAML, OOP, .NET Development, REST APIs, CI/CD, Agile, Azure, SDLC

AI4ALL

College Station, Texas

Artificial Intelligence College Pathways at Texas A&M

February 2023 – May 2023

- Collaborated with peers on a program to show AI's impact on personalization using a supervised learning algorithm
- Learned the applications and fundamental technical concepts of AI and ML, gradient descent, and neural networks
- Leveraged/Gained knowledge: Python, Pandas, Sklearn, NumPy, AI and ML concepts, ML models, Neural Networks

PROJECTS

Budget Guard

February 2023 – May 2023

- Developed an application for students on a budget to find the cheapest groceries, food, drinks, and gas in given radius.
- Working with a team of students at Texas A&M University as part of Aggie Coding Club. Leveraged: Vue.js.

AWARDS / CERTIFICATIONS

- Craig and Galen Brown Engineering Honors Student at Texas A&M University (Top 10% of Engineering Students)
- Dean's Honor Roll Award Fall 2022 and Spring 2023 (Awarded for having above 15 credits and a 3.75 GPA)
- JPMorgan Software Engineering Virtual Experience Program on Forage – June 2023
